DZML-450

Continuous-feed tray sealer

All-electric sealing for plastic food trays, with conveyor infeed, film cutting and automatic discharge.

Technical specifications

Sealing process	Heat sealing (seal-only)
Nominal packaging speed	9 to 12 cycles/min
Maximum tray size	350 × 280 × 80 mm
Maximum film width	410 mm
Maximum film roll diameter	260 mm
Machine dimensions	3041 × 900 × 1585 mm
Machine weight	500 kg
Total power	3 kW
Power supply	380 V / 50 Hz

Tray and tooling selection

The replaceable tooling is matched to the tray rim and lidding film. The electric drive operates without compressed air. Share your tray dimensions, material, film and target output when requesting a configuration.

Cycle speed and packs per cycle depend on the tray, film and tooling. Confirm the actual configuration and throughput in the quote.

Discuss your tray format
